Profile

As a sixth-semester Statistics student and Minister of Student Resource Development (PSDM) in BEM FMIPA at Universitas Sebelas Maret, I manage a variety of programs that sharpen student skills. In this role, I lead activities and workshops to strengthen my peers' abilities. With a strong foundation in data analysis, data science, and machine learning, I'm driven to leverage data for impactful decision-making. I am also enthusiastic about deepening my skills in these fields to expand my contributions even further. Collaborative, organized, and eager to learn, I believe data is the key to meaningful solutions for the future

Education

Statistika, Universitas Sebelas Maret, Surakarta

August 2022 — Present

- Currently deepening knowledge in data analysis, statistical methods, data science, and machine learning.
- Engaged in both theoretical and practical coursework, focusing on data modeling, hypothesis testing, and computational statistics.
- Actively involved in university organizations, developing leadership skills and enhancing teamwork through various academic and extracurricular activities.

Science Major (MIPA), SMA Negeri 1 Salatiga, Salatiga

July 2019 — May 2022

- Strengthened knowledge in mathematics, physics, chemistry, and biology, focusing on analytical thinking and problem-solving skills.
- Actively participated in the volleyball extracurricular activity, developing teamwork.
- Built a strong foundation in science, which paved the way for pursuing a degree in Statistics.
